The Rumored Proposition to Cede this Colony to the United States.

We were not unprepared for the report that the United States wishes to buy Vancouver Island and British Columbia, and that an offer has been made by Mr Seward to accept this Colony as an offset to the Alabama claims. The proposition includes, as a matter of necessity, the entire Territory lying west of the Rocky Mountains, and the adjacent Islands, with the backbone of the great range for the division line. Since the cession of the Russian Possessions to our neighbors, the command that the Americans have obtained over the greater portion of this British Pacific Coast is almost overwhelming; and it must be apparent to even a careless observer that it only requires the cession of San Juan Island to the United States to render our possessions on the Pacific utterly indefensible and worthless in case of a rupture between the two countries. We are hemmed in on the north and south. The lines are being drawn tighter every year. In 1825, the blundering of British statesmen over the North-west boundary gave a coast line of three hundred and fifty miles in length to the more wide-awake Russian, who only the other day used the concession granted forty-two years ago to pay us off for interfering in his little game in the Crimea. The loose, shambling manner in which the Treaty of 1846 with the Americans was drawn, has since afforded them an excuse for seizing on San Juan Island, where their guns command the two channels leading to the Seat of Government on the mainland. But it is not alone the encroachments of our neighbors that have created a wide-spread feeling of alarm and discontent here. It is the extraordinary indifference and apathy with which our demands are treated by the Home Goverament that have given just cause for complaint. No attempt is made to assist us in developing latent resources; no expedition is sent out at Government expense to explore the country and show what we have to offer the starving millions of the Old World. We are required to "foot the bill" of an expensive Civil List, and told not to expect a penny from our hard-hearted mother to aid us in the discharge of that obligation; we meet with no encouragement in any shape. There are men in Parliament who voted to unite us to the mainland, but who have not the faintest conception of where we are located. Heavy burthens are strapped to our back. If we succeed in carrying them—if the country "goes ahead" and becomes populous and rich—it will be said Great Britain did it, and we shall hear a great deal about the latest and brightest gem added to the British Crown. But if the Colony goes down, involving the colonists in common ruin, we shall be told that we are lazy and shiftless, and deserve no better fate. Why should this state of things continue, if the Home Government really entertains the strong affection towards the Colonies that some speakers in Parliament profess? Why should a line of policy be persevered in that is alienating the affections of colonists from Great Britain and causing them to cast their eyes across the imaginary line that divides them from their Anglo-Saxon brethren, and long for a "closer communion" with the children of a Government that does so much to foster and encourage the growth of every section of its vast domain? Sitka has not been three weeks in the possession of the Americans—the Stars and Stripes have not even been unfurled to the breeze on its shore—yet we hear already of an expedition being on its way out from Washington to thoroughly explore the country and report upon its capabilities and resources. Before the summer has passed away, we shall hear of a territorial Government being formed in the North, and a delegate will pass through our city to take his seat in Congress and lay before that body a statement of the wants of the new star that has just risen in the American firmament. Is it to be wondered at that we find a great and growing feeling of discontent pervading the public mind when they contrast their own situation with that of the States and Territories about them? Is it any wonder that a transfer of the Colony to the United States under the arrangement proposed would be hailed with satisfaction by many of our people? We deeply regret that such is the state of popular feeling here to-day. But what are our people to do? Where are they to turn for relief? Their patience and means are exhausted, and their loyalty is put to a severe test when they reflect that while the rest of the world is moving forward they are going behind. They know from the experience of the past that no help need be looked for from home. Confederation would save us; but when may we expect its consummation? None would regret more deeply than ourselves the failure of British institutions on the Pacific; but if the day ever arrives when the British flag shall be supplanted on this Island by the Stars and Stripes, the responsibility will rest with the Home Government, not with the Colonists. The present negotiations, we believe, will amount to nothing. Great Britain will not sell her Colonies. She might exchange British Columbia for a generous slice of the State of Maine, which would give a fine seaboard to the new Confederation. But the Americans, on the other hand, will not part with Maine. So no bargain can be struck. Money cannot buy us at present, notwithstanding we are treated very indifferently, and every day told we are a burthen and a source of continual annoyance to our old mother.

Gossiping Letter from San Francisco.

[EDITORIAL CORRESPONDENCE.]

SAN FRANCISCO, April 12, 1867.

The telegraph will, no doubt, have informed you of the arrival of the California. We reached this at one a.m. yesterday, after a very disagreeable trip of over five days. The first day after we left we had a head wind, but fine weather; next day, beautiful weather and light fair wind, next day, wind ahead and gradually freshened as we got south until we reached Point Reyes, when we encountered a right down genuine S. E. storm; ship acting in the liveliest kind of manner and scarcely able to face it; stood off shore for the night and lay to, not expecting to get in, when a sudden shift to the westward helped us to find the north Farallone light, and we groped our way into port in the dark, through thick, heavy rain and a terrible rolling sea. I was not sick at all, although from being stuck below during the storm, I did not feel comfortable. The female passengers and some of the male were very sick. We had got partly accustomed to the roll of the vessel, but some of the scenes presented during the heavy blow were very ludicrous, passengers attempting to pass along the saloon would be thrown and tumbled about in the most helpless manner. The scene after our attempt at dinner on Wednesday was rich in the extreme, and reminded me forcibly of the description of what occurred on board the Great Eastern, when she became unmanageable by the loss of her rudder. The steamer gave some heavier lurches than usual, and away went everybody out of their seats against the bulkheads and back again with equal violence; the crockeryware followed suit, and had a gay time, rattling from side to side on the floor, while the stewards would be seen sailing along on the tops of them in a swimming position, their arms extended trying to save some of the wreck. Such a thing must be seen to be appreciated, although the howl of the storm, the roaring of the waves, and the din and clatter was sufficient to frighten persons not accustomed to the sea. I had traveled sufficiently to be able to enjoy the fun, and never laughed so much in my life. There is something peculiarly provocative of mirth in the helplessness of landsmen at sea, in bad weather particularly, when superinduced by symptoms of fear. Parson —— didn't feel at all the thing, and, from his silence, disapproved of jocularity under the circumstances. However, he is a good fellow, and didn't intrude his cloth on us at all. Well, here we all are at the Russ House, and intend leaving by the Sacramento on the 18th. The Montana sailed on the 10th, and encountered the first part of the blow which we had on passing over the bar; passengers reported to be all very ill. The bar gets very rough in this weather, particularly in ebb tides, the sea rising to an enormous height and breaking sometimes right across the gate. A second blow followed last night and this morning; We hear of the pilot boat Curtis, with four hands being lost; at least she was found dismasted and decks swept clean, at the bar, and unless her crew escaped in the boat, which is improbable, they must have gone down. Yesterday, the City was in great state of excitement over a prize fight, between Harris, of New York, an Englishman, and Chandler, of California, former champion of the light weights, who fights 135½ against 136. The match was for $5000, and people have come all the way from New York to see it. The *Herald* sent a reporter with instructions to telegraph the fight. It is looked upon as a match of East *vs.* West, and not Bull *vs.* Jonathan. Thousands found their way to San Mateo, where a large amphitheatre was constructed (which by the way gave way and precipitated a number of people down twelve feet, wounding several badly but none dangerously.) The fight was interrupted by the interference of Sheriff Lathrop, of San Mateo, and a posse of police, backed by the Judge of the district, and after considerable railing and threatening from the roughs the crowd dispersed. They meet, it is said, to-morrow, in another direction. Large sums of money are pending on the fight. The America arrived here the day before we did, having broken her shaft down the coast, and been detained for some days in consequence. The number of Victorians you meet on Montgomery street is astonishing; several times I have stopped to talk to one person when up would come another, until I had half-a-dozen around me.

McK. is delighted with this city, and thinks there is no place in the world equal to it, or any women that can vie with the fair dames here. There are certainly a number of pretty women to be seen in the streets, with comely features, presentable figures (so far as outward appearance goes), and neat feet, squeezed up into the smallest of boots, sometimes carried to such an extent as to impede their perambulation.

By the way, after the Diana left us in the Straits, ——, with whom I had shaken hands on the wharf, coolly turned up and walked aft, much to our astonishment. I and others asked him what he was doing there, and he said he was going for a change and didn't want to be seen as he might be stopped, but that he was going back by next steamer. I don't say it was a skedaddle, but it was something precious like it.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

California.

SAN FRANCISCO, April 23—The Cosmopolitan Hotel is on fire. The hotel was full of guests, nearly every room in the house being occupied. If the two lower stories escape it will require months to put the building in repair. The whole attic story is gone, and the smoke is driving out of the windows of the next story below on the southeast corner. It may be possible to save the lower floors.

Eastern States.

NEW YORK, April 18th—The *Herald's* special says an expedition to Russian America is being organised by the Department of State for the purpose of making thorough and scientific explorations. It will start about the first of May. The officers have not been designated, though Professor Baird, Smith or Henning will be one of the members. It will assemble at San Francisco, and take the revenue cutter Lincoln and go to Sitka and thence explore the interior and coast.

It is rumored that negotiations are pending with England for the purchase of the western portion of British Columbia, including Vancouver Island. The only difficulty in the way of that consummation seems to be that Seward insists on turning in the Alabama claims as payment, to which Lord Stanley, Foreign Secretary, demurs.

Europe.

BERLIN, April 18—*Evening*—It is reported that the French frontier is to be put on a war footing and ambulances purchased, and that the French reserves will be called in on the 1st of May. Prussia is making preparations for war.

Canada.

ROCHESTER, N. Y., April 18—The Canada papers complain that a gold excitement is prevailing among the young men there. Companies are forming throughout Canada; machinery is being transported at great expense; claims are sold at from five to fifty thousand dollars. The Madoc district presents the chief attraction.

AN EYE TO BUSINESS—A Yankee captain was caught in the jaws of a whale, but was finally rescued, badly wounded. On being asked what he thought while in the situation, he replied: "I thought he would make about forty barrels."

"Sir," exclaimed an excited Radical, "if the rebels are going to be allowed to rule over us, then the blood of the colored substitute for whom I paid three hundred dollars, was shed in vain—in vain!"

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the Age

Taken internally, it cures sudden colds coughs, etc., weak stomach, general debility nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic Asiatic cholera, diarrhœa, and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

MR DALLY takes pleasure in announcing to the inhabitants of Victoria and its vicinity that the alterations in his photographic gallery are now completed, and that those who favor him with a visit may depend upon getting a faithful portrait. Views of houses or scenery photographed in an artistic manner, Fort street, near Government. *

AYER'S CHERRY PECTORAL surpasses all other remedies in the rapid and radical cure of Coughs, Colds and Consumption. *

Another Medical Triumph.—Wonderful cure of rheumatism. No disease is more agonizing than rheumatism; none more difficult to relieve; yet a case which, for thirty years, has baffled the Faculty, has, it appears, been completely cured. The particulars are given, with expressions of astonishment at the result, in many of the western journals. They state that John Roche, of Cleveland, Ohio, aged fifty-six years, had, for the greater part of his life, endured torments of the most terrible description. His limbs had been racked, and contorted by pain and muscular contractions, until his knee-joints were of the size of a man's head, and his fingers knotted and drawn up, until they resembled the claws of a bird of prey more than human hands, while a scrofulous tendency in the blood was indicated by blotches and pustules on various parts of his body. In this dire condition he began to use **Bristol's Sugar-coated Pills,** in conjunction with that great antidote to the virus of scrofula, **Bristol's Sarsaparilla.** Eleven vials fo the Pills, and eight bottles of the Sarsaparilla, relieved him from every vestige of pain; and, although his limbs and joints have been and still partially contorted (for they were beyond absolute cure), he is now well, cheerful and able to attend to his business. The Pills are put up in glass vials, and will keep in any climate. Both medicines are obtainable of all druggists. 417

Libels on the Flowers.—The incense breathing blossoms of every clime are inhumanely libelled by parties who attach the names of these exquisite products of nature to preparations manufactured from pungent essential oils. **Murray and Lanman's Florida Water,** for thirty years the standard perfume of Spanish America, is frequently simulated by impostors, whose preparations are not only worthless, but deleterious to health, producing a pernicious effect upon the brain and nerves, besides becoming rancid and disagreeable to the sense of smell soon after contact with the air Beware of such. Avoid them. **Murray and Lanman's Florida Water** is the purest and most lasting of all perfumes. ☞ Purchasers are requested to see that the words "FLORIDA WATER, MURRAY AND LANMAN No. 69 Water street, New York," are stamped in the glass on each bottle. Without this none is genuine. 631

HOLLOWAY'S PILLS.—Enfeebled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of disease laid by defective food and impure air. In obstructions or congestions of the liver, lungs, bowels, or any other organ, these Pills are especially serviceable and eminently successful. They should be kept in readiness in every family, as they are a medicine without a fault for young persons, and those of feeble constitutions. They never cause pain, or irritate the most sensitive nerves or most tender bowels. Holloway's Pills are the best known purifiers of the blood, and the best promoter of absorption and secretion, which remove all poisons and obnoxious particles from both solids and fluids,

A New and Grand Epoch in Medicine.—DR. MAGGEL is the founder of a new Medical system. The quacks and charlatans, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents p x.

Inflammatory Eruptions.—Few diseases of the skin that are not marked by constitutional symptoms, are so dangerous as Erysipelas. Its seat is in the derma of true skin, and during its continuance the superficial vessels are surcharged with an infectious virus. Yet it yields with a readiness almost incredible to the depurative counter-irritating properties of **Bristol's Sarsaparilla.** All the external eruptions, such as salt rheum, Neptune Rash, Rose Rash, Inflammatory Scals, Pupin, etc., etc., are eradicated with great rapidity by this peerless vegetable specific. The bowels should be kept laxative for which purpose **Bristol's Vegetable Pills** are the best and safest medicine. 518

LOUIS A. GARNETT.....President and Manager
JOHN HEWSTON, JR.....Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty-eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300½@600 parts gold, 5 cents per ounce.
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@850 parts gold, 11 cents per ounce.
For refining bullion from 850½@949½ parts gold, 14 cents per ounce.
The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

859 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return at refining charge of 8 cents. m18, 2p3m

Lower River Items.

(From the Examiner and Columbian)

OFFICIAL MOVEMENTS.—Hon P. O'Reilly goes up river this morning to enter upon his duties as Magistrate of the Yale and Lytton District. Hon H. M. Ball will also start to-morrow for Cariboo for the same purpose. It is rumored that Hon C. Brew will succeed Mr Ball in the magistracy of Cariboo when the latter fills the office of Colonial Secretary in the absence of Hon A. N. Birch. Mr Ball about the end of June will return to the Capital to occupy the position of Acting Colonial Secretary, during the absence of Hon Mr Birch in England.

Mr Chadwick left Lillooet on Friday, coming the Fraser river route. At Spinklam's Flat he encountered a heavy snow storm. The road between Lytton and Yale he found in tolerably good condition, and met a dozen or so of teams between these two points, upward bound with loads of freight. Mr Chadwick has one hundred acres under grain crops this season. He informs us that he has cured nearly 3000 lbs of excellent bacon, which he offers at 40 cents per lb delivered at Lillooet.

The two grist mills (the Lillooet Company's and Mr Scott's) have made about 200,000 lbs of flour during the season, most of which now awaits purchasers at 8 cents per lb. It is said to be of a very superior quality.

The farmers complain of the high tolls taken at these mills. They have to provide sacking and allow one-sixth for grinding.

The only mining being carried on at present is on Bridge River, where two companies had commenced taking out rich pay. The dirt yields at the rate of 16 cents to the pan! There are ten men in each company, and the utmost confidence is felt in the operation.

From Cariboo.

From Mr Edward Pearson of Williams Creek, who left that place on the 7th and arrived here on the 22nd instant, we have obtained the following items of news: The weather on the Creek was mild and the snow rapidly thawing. The consequence was that the water, for want of which little work had been done for some time, was rising, enabling work in many claims to be resumed. There is, however, nothing of interest to record. The Hood company, on Conklin's Gulch, had given out the job of drifting their tunnel, for $7 39 per foot. The contractors, after running in 200 feet, struck very hard rock and threw up the contract, having lost $500 by the operation. Another party undertook to carry it through at $15 a foot, and the work was being vigorously pushed forward. The United Company, who struck it so rich a short time ago, are drifting a tunnel direct to the rich lead.

Market prices had experienced a slight decline.

Mr John Callbreth had brought in 4000 lbs. of the Adams mills flour, but there was little demand: There was considerable snow on the road to within 10 miles of Quesnellemouth, and, owing to the thaw, travelling was sloppy. Teams are still passing over the Quesnel river on the ice. Grain at that place was 15 cents, and tending upward. Freight from there to the Creek was from 7½ to 10 cents.—*Columbian.*

MR WILSON BROWN, of this city, now in London, has addressed a letter to the editor of the *Star*, in which he declares his intention of disposing of his property in England and settling permanently on Vancouver Island. He says he is taking several farm servants out with him. He suggests a gradual emigration, such as the colony can absorb, to be fostered by Government and charitable aid. In the letter the following effective passage occurs:—"Wafted as I have been through bright sunshine from a clear bracing atmosphere, to arrive in England just now is depressing, but to see the poor creatures who are sinking with cold and hunger in London is horrifying, when so many lands would rejoice to receive them, and I have no hesitation in saying a great proportion of these miserable people, if they were to be judiciously selected for the different colonies, would not only cease to be a trouble at home, but realize a comfortable living, and be a source of wealth to the country of their settlement. Such may be said of Vancouver Island to a limited extent, especially if at this juncture and change of Government the colonial authorities would see the necessity of taxing the unoccupied and unimproved lands so as to do away with the iniquitous system of holders and speculators in real estate. One of the causes of the present depression in the colony is the misrepresentation of men of high repute, but who, I have no doubt, did so from a miscalculation as to the capacity of the colony to absorb emigration, which induced them to say "there was a living for all," forgetting the amount of passage money forbade the hewers of wood and drawers of water to undertake the voyage, but which was no obstacle to young men from the counter and counting-house, who, deceived by such reports, rushed out there to suffer more than I should like to recount."

FROM NEW WESTMINSTER.—The steamer Enterprise arrived yesterday afternoon from New Westminster. Twenty passengers came down by her, amongst them being Capt Cooper of New Westminster, Mr W Leigh and wife of Yale, Messrs Gowdie and Pearson from Quesnellemouth and Cariboo respectively.

DEFAULTERS.—The Government *Gazette* contains three pages and a half of closely printed names of defaulters under the Estate Act.

THE CANADIAN GOLD MINES—A letter from Madoc in the Montreal *Witness*, says The gentleman who put the blast in the Richardson mine in January, who has been a miner in California and Cariboo, says there is no doubt as to the extent of this mine; and one of the best proofs of this opinion is that the company who have now purchased contracting for the building material to construct two buildings 40 by 50 feet each. One is to be over the mine, fitted with an engine and machinery for raising out the deposits from the shaft, and storing the precious metal; the other building to be located under a hill near by, with a railway to convey the quartz passage into the tap passing down through the crushing mill, and coming out at the bottom of the powder, ready for separating and gathering with quicksilver; the whole building, machinery, mills, and engine room, etc, costing from $30,000 to $500,000r I therefore leave your readers to judge of the anticipated result of the renowned Richardson Madoc gold mine. Other claims are being brought up with prospects equally favorable at fabulous prices, varying from $5,000 to $30,000, for from five to one hundred acres; the latter price having just been paid near this village. Companies are being formed in every direction in Canada West for mining and speculating operations, some of whom are about to prospect from thirty to seventy miles north—a region which is supposed by judges of mining operations, upon information collected by old hunters, to excel this locality for gold mining.

A TOUCHING STORY.—The Cincinnati *Gazette* tells the following sad story, the moral of which is evident: We once knew a man to struggle for years to color a particularly obstinate meerschaum pipe. He smoked incessantly. He tried all the different kinds of tobacco; put a "button" in it, boiled it in tobacco juice, but all to no avail. It wouldn't color. He grew morose and sour, shut himself up by himself and smoked, and smoked and smoked, muttering savagely between his teeth: "Color! I say. D——n ye. I'll c-o-l-o-r ye!" He gave up all business, and devoted himself wholly to smoking, determined, as he said, to color the pipe or die in the attempt. One day he failed to make his appearance at breakfast. His room was opened and there he sat in his chair, dead the fatal meerschaum clutched tightly between his teeth. The meerschaum was as white as when it first emerged, Venus like, from the foam of the sea, but the man was turned to a rich dark brown. The meerschaum had colored him!

COMMITTEE—P. O'Dwyer, T. J. Burnes, P. N. McDonald, A. N. Nicolson, James Collins.

BOAT RACE.—A novel match has just been made here, between four boats—one boat rowed by Mr Bunster and one man from his brewery; a second by Mr Vogel and one man from his brewery; a third, by Mr A Phillips and one man from his soda factory; and a fourth, by Mr Stuart and one man from his brewery. Steersmen to be selected haphazard; the boats to be two oared, and lots to be drawn for pick of boats. The first day of May has been selected for the race; stakes $25 a side, to be deposited with Mr Beecroft of the Gorge Retreat on the 28th of April. The distance rowed will be from the Hudson Bay Company's wharf to the Gorge. The agreement was signed yesterday in the presence of Mr Beecroft of the Retreat.

FLOUR.—From Lillooet we learn that the flour manufactured there is giving general satisfaction in Cariboo. The grist mill at Soda Creek is also turning out an excellent article. It has been said that no flour would be required from the lower country this year, owing to the abundance of grain in the agricultural sections of the upper country. The arrival of the Onward, from Yale, on Monday, with information from Cariboo down, does not verify the statement. The amount of grain, though large, is not, it appears, proportioned to the consumption. The stocks of flour now in Cariboo are not large, and an advance in price is expected. The next mail, it is said, will probably bring information that the staple has advanced to 30 cents.—*Examiner.*

THE THEATRE.—There was a very full house at the theatre last evening, and Miss Arnot must have reaped a substantial benefit. The fair beneficiary never appeared to better advantage than as "Our Jenny." Mr Rushton, who made his farewell bow, was warmly applauded, and "did" his part excellently well. But Mr Callingham, as Giles Freckleface, was the "gem" of the evening—the "bright particular star" round which the lesser planets revolved. An efficient orchestra contributed greatly to the success of the entertainment. Owing to the lateness of the hour an extended notice is deferred until to morrow.

I.O.O.F.—The forty-eighth anniversary of the introduction of the I.O.O.F. on the American continent, will be celebrated to-morrow, by an oration on "The Principles of Odd Fellowship," to be delivered by Bro. Rev. Thomas Somerville, Chaplain, at 3 p. m., at Odd Fellow's Hall. The public generally are respectfully invited to attend. At 7 p.m. the Brethren and their guests will meet at the St. George Hotel, View street, and partake of a dinner. Sojourning Brethren in good standing are cordially invited to attend. Tickets can be obtained from members of the committee.

PILOT BOARD.—This body will meet at 11 o'clock this morning at the Harbormaster's for the despatch of business.

A BILLIONAIRE.—Millionaires have come to be common affairs, but a billionaire is not stumbled upon at every corner. George Peabody is merging toward that extremely respectable figure. The Washington *Republican* says he made a will in 1856, which demonstrated that he was then worth fifty million pounds sterling; and it estimates that the increase of his fortune by good management has made it amount to one hundred million sterling—five hundred million dollars.

THERE were rumors about town last evening to the effect that news had been received of a serious mutiny on board H. M. S. Sutlej (Admiral Denman's flag ship), at Valparaiso. We could not trace the report to a reliable source, and doubt its correctness.

THE TELEGRAPH LINE TO ESQUIMALT.—Mr C. W. Wallace has received from Government the exclusive right to construct and maintain a telegraph line between Victoria and Esquimalt for a limited number of years. The line will be built at the expense of Mr Wallace and not by him under contract.

NEW SPRING GOODS.—AT VICTORIA HOUSE—(corner of Fort and Douglas streets,) are now being unpacked the first instalment of their spring goods received by last steamer, comprising novelties in dress materials for spring and summer wear, Ladies' and Children's Mantles and Jackets, Hats, Bonnets, &c., &c. *

THE EASTER VESTRY MEETING of the Cathedral will be held to-day at the Boys' College at 4 30 p. m., for the appointment of Churchwardens and Church Committee and the reception of the Annual Report.

GUBERNATORIAL MOVEMENTS—His Excellency the Governor and Mrs Seymour will probably arrive down from New Westminster to-day. The Enterprise brought His Excellency's horses down last evening.

DISCHARGED.—The French Canadian charged a day or two since by Mr Timmerman with wilfully burning a barn, was yesterday discharged by the Police Magistrate.

CHOCOLATE.—Mr Piper has commenced the manufacture of chocolate in quantities sufficient to supply the local demand.

H. M. S. SPARROWHAWK will go to Nanaimo to-day and thence to New Westminster.

THE time for the payment of taxes for the present municipal year has been postponed until the 1st of May.

THE U. S. Revenue Cutter Lincoln arrived from the Sound yesterday afternoon to await the arrival of the mail.

THE Fideliter will carry five hundred barrels of lime to Portland.

MR Selim Franklin, of this city, is said to be on his way out from London.

VICTORIA RIFLE CORPS.—Position Drill Tuesday and Friday, at 8 p.m., James Bay. By order, J. GORDON VINTER, Lieut. and Adjt.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Scrofula, or King's Evil.

is constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholera, Dysentery, Diarrhœa Colics, &c.

"Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.'' From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other remedies had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chancellor Sir W Page Wood stated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES, July 30th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See LANCET, Dec. 31, 1863.

Dr J Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866— Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

CURES AND COMFORT FOR THE BED-RIDDEN.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moscuetos	Fistulas,	Scurvy,

REPORT.

From 1st January, 1866, to 31st March, 1867.

The committee are happy to report that, notwithstanding the depressed circumstances of the times, they have continued to extend the benefits of the Institution to the sick and afflicted. Since the last Report nine patients have been admitted; one has died, and eight have been discharged convalescent.

In order, however, to enable them to do this, they have been compelled to reduce the allowances to their efficient nurse and matron, Mrs. Ford, during the periods when there are no patients in the Infirmary.

It will appear from the Treasurer's report that the total contributions have amounted to $1320, while the total expenditure on behalf of the patients has fallen short of $1050. It is obvious, therefore, that, but for the debt which presses upon the institution, there would have been a considerable balance to its credit. The committee view this as an encouragement to persevere in this benevolent work.

To guard the institution against needless expenditure, paying patients have been required to make some payment in advance, as this duty is sometimes forgotten after the benefits have been enjoyed. It is pleasing, however, to notice more than one case in which, without any engagement, discharged patients have testified their appreciation of the blessings they have received, by becoming liberal contributors to the funds.

A series of lectures and concerts, under the auspices of the Bishop and Mrs. Hills, has netted upwards of $230 towards the liquidation of the debt and of the interest thereon, which now amounts to $772; but it is hoped that the vote of $250 made some time ago by the House of Assembly will be paid by the Government and assist to relieve the Institution of this burden.

Mrs. Seymour has kindly consented to become a Patroness of the Infirmary.

In conclusion the committee would thank the subscribers and donors for their benevolent liberality; and here they would not fail to mention the great obligation which the subscribers, patients, and managers, are under to the careful attention of the medical gentlemen who have given their valuable and gratuitous services to the charity. They would express their firm belief that an institution which extends its benefits to all, without respect to nationality or denomination, will not be suffered to languish for want of funds. They would still appeal to the women of this colony not to look coldly on a work which is so calculated to conduce to the comfort and elevation of their sex. The managers may sometimes feel a difficulty in drawing a line as to the cases which deserve admission, but they believe that the subscribers will fully bear them out in the view that, while they should guard the Institution against being made the starting point for a fresh career in vice, they should never turn away a poor perishing outcast, by whatever causes her affliction may have been produced.

E. CRIDGE, Hon. Sec.
